EXPERIENCE

JAVA FULLSTACK DEVELOPER

Techstar Software Development India

Sept2023 - ONGOING

PROJECT:- HRMS

This helps the sourcing team to upload the profile in the portal and assign for interview as per the scheduled time. Profile once uploaded gets assigned to the Technical panel for an interview with alerts and a meeting link. Technical Panel will have a dedicated screen for capturing the feedback and rating option and to upload the interview screenshot for future reference and subsequent client submission.

JAVA SPRINGBOOT DEVELOPER

INFOWARE INDIA PVT LTD -AHMEDABAD

Oct 2022 - Apr 2023

PROJECTS:-

1. blinkX (Trading App):

Description: High-speed online trading app by JM Financial.

Tech Used: Java, Spring Boot, React JS, Next JS, AWS, Gitlab, etc.

- Contribution: Web updates, bug fixes, optimization, API integration, and extensive testing for both front and backend. Task cover various aspects of web development, including sitemaps, menus, page speed, SEO, and API/widget integration. Work also involves caching, session management, data mapping, and resolving Dialogflow issues for search queries.

2. CredAvenue (Enterprise App):

- Description: Facilitates debt financing for enterprises through an online marketplace.

- Tech Used: Node JS, Express, React JS, Next JS, AWS, Gitlab, etc.

- Contribution: Frontend API Integration with React JS. Tasks include web development activities, sitemap/menu updates, code management, bug fixes, and performance optimization. Also involve resolving Dialogflow issues, handling spelling correction, and working with region settings in AI agents.

JAVA DEVELOPER

Techstar Software Development India
